## Professional Summary

Experienced Sr. Full Stack Developer with 6+ years of expertise in developing scalable web and mobile applications. Proficient in Python, Django, React JS, and **React Native**. Adept at leading teams, optimizing processes, and delivering innovative, high-performance solutions.

## Technical Skills

- **Languages:** Python, JavaScript, Java, HTML, CSS, SQL, C
- **Frontend:** React JS, React Native, Android, iOS, Flutter
- **Backend:** Django, Flask, FastAPI
- **Databases:** MySQL, Redis, Elasticsearch
- **Cloud:** AWS
- **DevOps:** Docker, Git
- **Tools:** PyCharm, VS Code, Android Studio

## Work Experience

### Senior Full Stack Engineer (SDE4)

April 2025 – Present

Easebuzz, Hinjewadi, Pune

- Contribute to the development and enhancement of **NACH Mandate** and **UPI Payment** platforms by implementing new features, improving existing modules, and ensuring platform stability.
- Handle critical **production bug fixes** and issue resolutions, ensuring minimal downtime and reliable transaction processing for enterprise merchants.
- Participate in **end-to-end release cycles**, including deployment planning, validation, and execution to staging and production environments.
- Actively involved in **production monitoring**, log analysis, and proactive issue detection to maintain application health, performance, and high availability.
- Collaborate closely with product managers, QA, and backend teams to deliver secure, scalable, and efficient payment solutions.
- Support and improve the **B2B invoicing platform**, contributing to automation workflows, reconciliation enhancements, and process optimization.

### Sr. Software Developer

September 2018 – April 2025

CrelionHealth, Baner, Pune

- Worked extensively with **Python, Django, JavaScript, React JS, React Native, Android (Java)**, Redis, Elasticsearch, and AWS to deliver high-quality healthcare software solutions.
- Led the design and development of the **CrelionHealth Patient Mobile App** using **React Native**, enabling seamless access to lab reports, appointment booking, and medical records.
- Built and maintained **cross-platform** mobile features for both **Android** and **iOS**, ensuring consistent UI/UX, responsive performance, and backward compatibility.
- Implemented secure authentication, push notifications, offline capabilities, and robust API handling to enhance reliability across **Android** and **iOS**.
- Improved app stability and performance through optimized caching, efficient state management, and network optimization for **React Native** applications.
- Managed **Play Store (Android)** and **App Store (iOS)** releases including version control, monitoring crashes, and analytics tracking to ensure high-quality production delivery.
- Developed and maintained the Support Dashboard, optimizing issue resolution workflows and improving team efficiency.

- Implemented integrations with third-party platforms like **ZOHO** and **Razorpay** for subscription and payment management.
- Designed and executed efficient database migrations ensuring seamless transitions with zero data loss.
- Conducted code reviews, enforced best practices, and mentored junior developers to improve team performance.
- Developed a patient report analysis module to automatically detect normal or critical status, improving healthcare decision efficiency.
- Managed deployments on AWS ensuring secure, reliable, and smooth production updates.

## Android Intern

Jan 2018 – Aug 2018

EcoCosmo GPS, Hinjewadi, Pune

- Contributed to a real-time vehicle tracking application integrating GPS APIs with **Android**.
- Implemented smooth live vehicle tracking animations on Google Maps.

## Education

**Savitribai Phule Pune University**, Pune

2016 – 2018

M.Sc. in Scientific Computing

**Kaveri College**, Pune

2013 – 2016

B.Sc. in Computer Science
